

## ANTIBODY DILUENT PLUS

### INTENDED USE:

For In Vitro Diagnostic Use

<u>Catalog No</u>	<u>Volume</u>
PL-125-ADQ	125 ml

### DESCRIPTION

Antibody Diluent Plus contains a protein stabilizing agent and preservative. Concentrated antibodies can be diluted to the appropriate titer specified on the individual antibody datasheet or that determined by the user, to achieve optimal staining. The product is also suitable for use as a negative control reagent during immunohistochemical staining. The Antibody Diluent Plus is designed to provide crisp staining and minimize background staining.

### WARNINGS & PRECAUTIONS

Refer to MSDS.

### STORAGE & SHELF LIFE

Store at 2-8°C. Product is stable for 24 months from the date of manufacture.

### MICROBIOLOGICAL STATE

Product(s) not sterile.

### MATERIALS REQUIRED BUT NOT PROVIDED

N/A

### SPECIMEN & REAGENT PREPARATION

Refer to Procedure.

### PROCEDURE

Dilute concentrated monoclonal or polyclonal antibodies in Antibody Diluent Plus at the titer recommended or determined for the antibody to achieve optimal staining. Follow your laboratory's standard operation procedure (SOP) when performing immunohistochemistry using the diluted antibody.

### Troubleshooting
