

CD7

IN VITRO DIAGNOSTIC DATASHEET

INTENDED USE: IN VITRO DIAGNOSTIC USE

This product is intended for qualitative immunohistochemistry with normal and neoplastic formalin-fixed, paraffin-embedded tissue sections, to be viewed by light microscopy. it is Rabbit Monoclonal.

DESCRIPTION: CD7 is a transmembrane glycoprotein expressed in T-cells, natural killer cells, thymocytes and progenitors of both lymphoid and myeloid cells. CD7 expression and lack of expression are both useful in differential diagnosis. CD7 is expressed in 30% of AML cases1. CD7 positivity is linked to poor prognosis1, in myeloid malignancies and disease free survival and post-remission survival in AML2. CD7 loss along with cytogenetic abnormalities increases the identification of Aggressive Natural Killer Leukemia (ANKL) from 50% to 75% in a cohort of 20 patients.

CATALOG NO: PL2122 PL2122-R7 7 ML RTU 70 TEST PL2122-R1 1 ML RTU 10 TEST

 STAINING PATTERN:
 Cell membrane
 PL2122-1
 1 ML 1/200 2000 TEST

 PL2122-0,1
 0,1 ML 1/200 200 TEST

POSITIVE CONTROL: Tonsil, Hodgkin's Lymphoma

VOLUME: 7 ml Ready to Use (7 ml of antibody prediluted in 0.05mol/L Tris-HCl, pH 7.6 containing

stabilizing protein and 0.015mol/L sodium azide.)

HOST: Rabbit

CLONE: MRQ-56

ANTIBODY CONCENTRATION: Not known

SPECIES REACTIVITY: Human, Others-not known.

EPITOPE: Not determined

MICROBIOLOGICAL STATE: This product is not sterile.

PRETREATMENT: Staining of formalin-fixed tissue sections requires treating the tissue sections in boiling 10mM citrate buffer, pH 8.0, for 10-20 minutes followed by cooling at room temperature for 20 min.

PRIMARY ANTIBODY INCUBATION TIME: 60 minutes at Room Temperature

STAINING TIPS: If the staining is too light, use lower dilution or longer time. If the staining is

too strong, check pretreatment, use higher dilution or shorter time.

STORAGE AND STABILITY: This product contains sodium azide and is stable for 24 months when stored at 2-8°C. Do not use after expiration date indicated on label of the product. If reagent

is not stored as recommended, performance must be validated by the user.

TROUBLESHOOTING: Please contact Patolab Technical Support by e-mail (patolab@patolab.com.tr).
